STFE Active Tracking® Filter

The SolaHD STFE DIN rail mount series combines a unique hybrid clamping network with the Active Tracking® Filter technology to provide protection against the full spectrum of voltage transients and surges. It continuously tracks the input AC power line responding instantly upon detecting extraneous high frequency noise and high voltage transients caused by everyday events such as turning on machinery, motors or equipment. Devices are designed to meet UL 1449, UL 1283, cUL recognized and CE. Customized STFE DIN rail mount series available in hardwire DIN rail mount, single phase configurations.

BlueKote® Universal Elbow

Pulling cable against walls or ceilings is now easy! The new Thomas & Betts Universal Elbow represents huge savings for you in conduit, bodies and labor:

- Replaces LL, LR, LB and C conduit bodies – a 4-to-1 SKU reduction!
- Radius is the same as bent conduit – pull wire through the body.
- UL Listed as an enclosure.
- Rated for 40% wire fill.

10GX Pre-Terminated Cabling System

Designed for data centers and high-bandwidth applications, the Belden 10GX Pre-Terminated Cabling System delivers rapid deployment coupled with guaranteed Category 6A performance and headroom, without the need for tradeoffs or compromise in performance and reliability. Belden’s innovative “Pre-Term Made Easy™” solution brings a new level of ease and convenience to cabling system design, ordering and installation, enabling users to deploy their high-performance 10 Gigabit networks with optimal speed and efficiency; reducing installation time and labor costs by as much as 90%.

Ruff-IN™

Cooper B-Line Ruff-IN™ features quality assemblies made from innovative box supports, boxes/rings and devices — simply select components and we’ll build the assemblies.

- Ruff-IN Configurator puts the contractor in control! Simply select components to build custom assemblies, project BOMs and submittal packages.
- Croc-Lok™ secures boxes in four seconds! Multiple boxes at any position along the telescoping bar.
- Floor-mount box support features integral support arms for a rigid installation.

Surge-Trap® SPD

Power-related problems cost U.S. companies more than \$80 billion per year, driving up maintenance and production costs, causing production delays, lost sales, late deliveries, as well as increased spoilage and scrap. Ferraz Shawmut’s fail-safe Surge-Trap devices help minimize overvoltage problems by protecting sensitive electrical equipment from harmful transients. The Surge-Trap SPD with TPMOV® technology inside is UL 1449 Third Edition compliant and the only SPD offering superior surge protection without requiring additional overcurrent protection. It’s DIN rail mountable with a visual indicator and a small foot print.

Relight

Lithonia Lighting is pleased to introduce Relight! Occupants will enjoy improved lighting quality, a rejuvenated workspace appearance and a more productive work environment. The RT5™ and ES8™ Relight assemblies offer quick payback from energy savings and ongoing savings from reduced maintenance. Environmental benefits due to fewer components to recycle, a reduced carbon footprint and less mercury entering the waste stream. Relight assemblies are ideal for renovating obsolete parabolic systems with at least 4 3/8” overall depth. Benefit your employees, your enterprise and the environment. It’s time to realize Relight.

H2OMIT™ Condensation Solution System

Hoffman’s new H2OMIT™ Thermoelectric Dehumidifier and UL 4X Listed Vent Drain are designed to protect sensitive electrical and electronic equipment from condensation damage. The thermoelectric dehumidifier removes moisture, continuously controlling condensation formation. As moisture collects, it exits through the one-way vent drain, providing a comprehensive moisture removal and elimination solution. Devices are easily installed or retrofitted in metallic and non-metallic enclosures, minimizing condensation damage and maximizing component functional life—even in the most demanding industries and applications.

Call or visit one of our locations or go to frenchgerleman.com for more information on these new products.
